

Clever Training

Unlock your teachers' edtech expertise with Clever Training

Clever can take work off of your plate and help teachers build a strong foundation for streamlined and safe digital learning. Add-on custom training to support your school.

Interactive virtual training

90-minute live sessions with a dedicated trainer make professional development engaging, fun and personalized.

Tailored to your needs

We start with an overview of all key teacher features in the Clever Portal and customize with you based on an initial consultation.

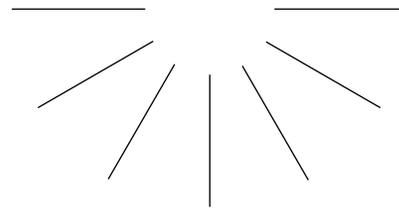

Live Q&A and troubleshooting

No matter the size of your session, our team of facilitators are equipped to make sure all attendees get personalized support.

Professional certification

All users get certificates of completion that can be added to LinkedIn and submitted as professional development hours (subject to school/district approval).

Training your Teachers
